ARRIVE

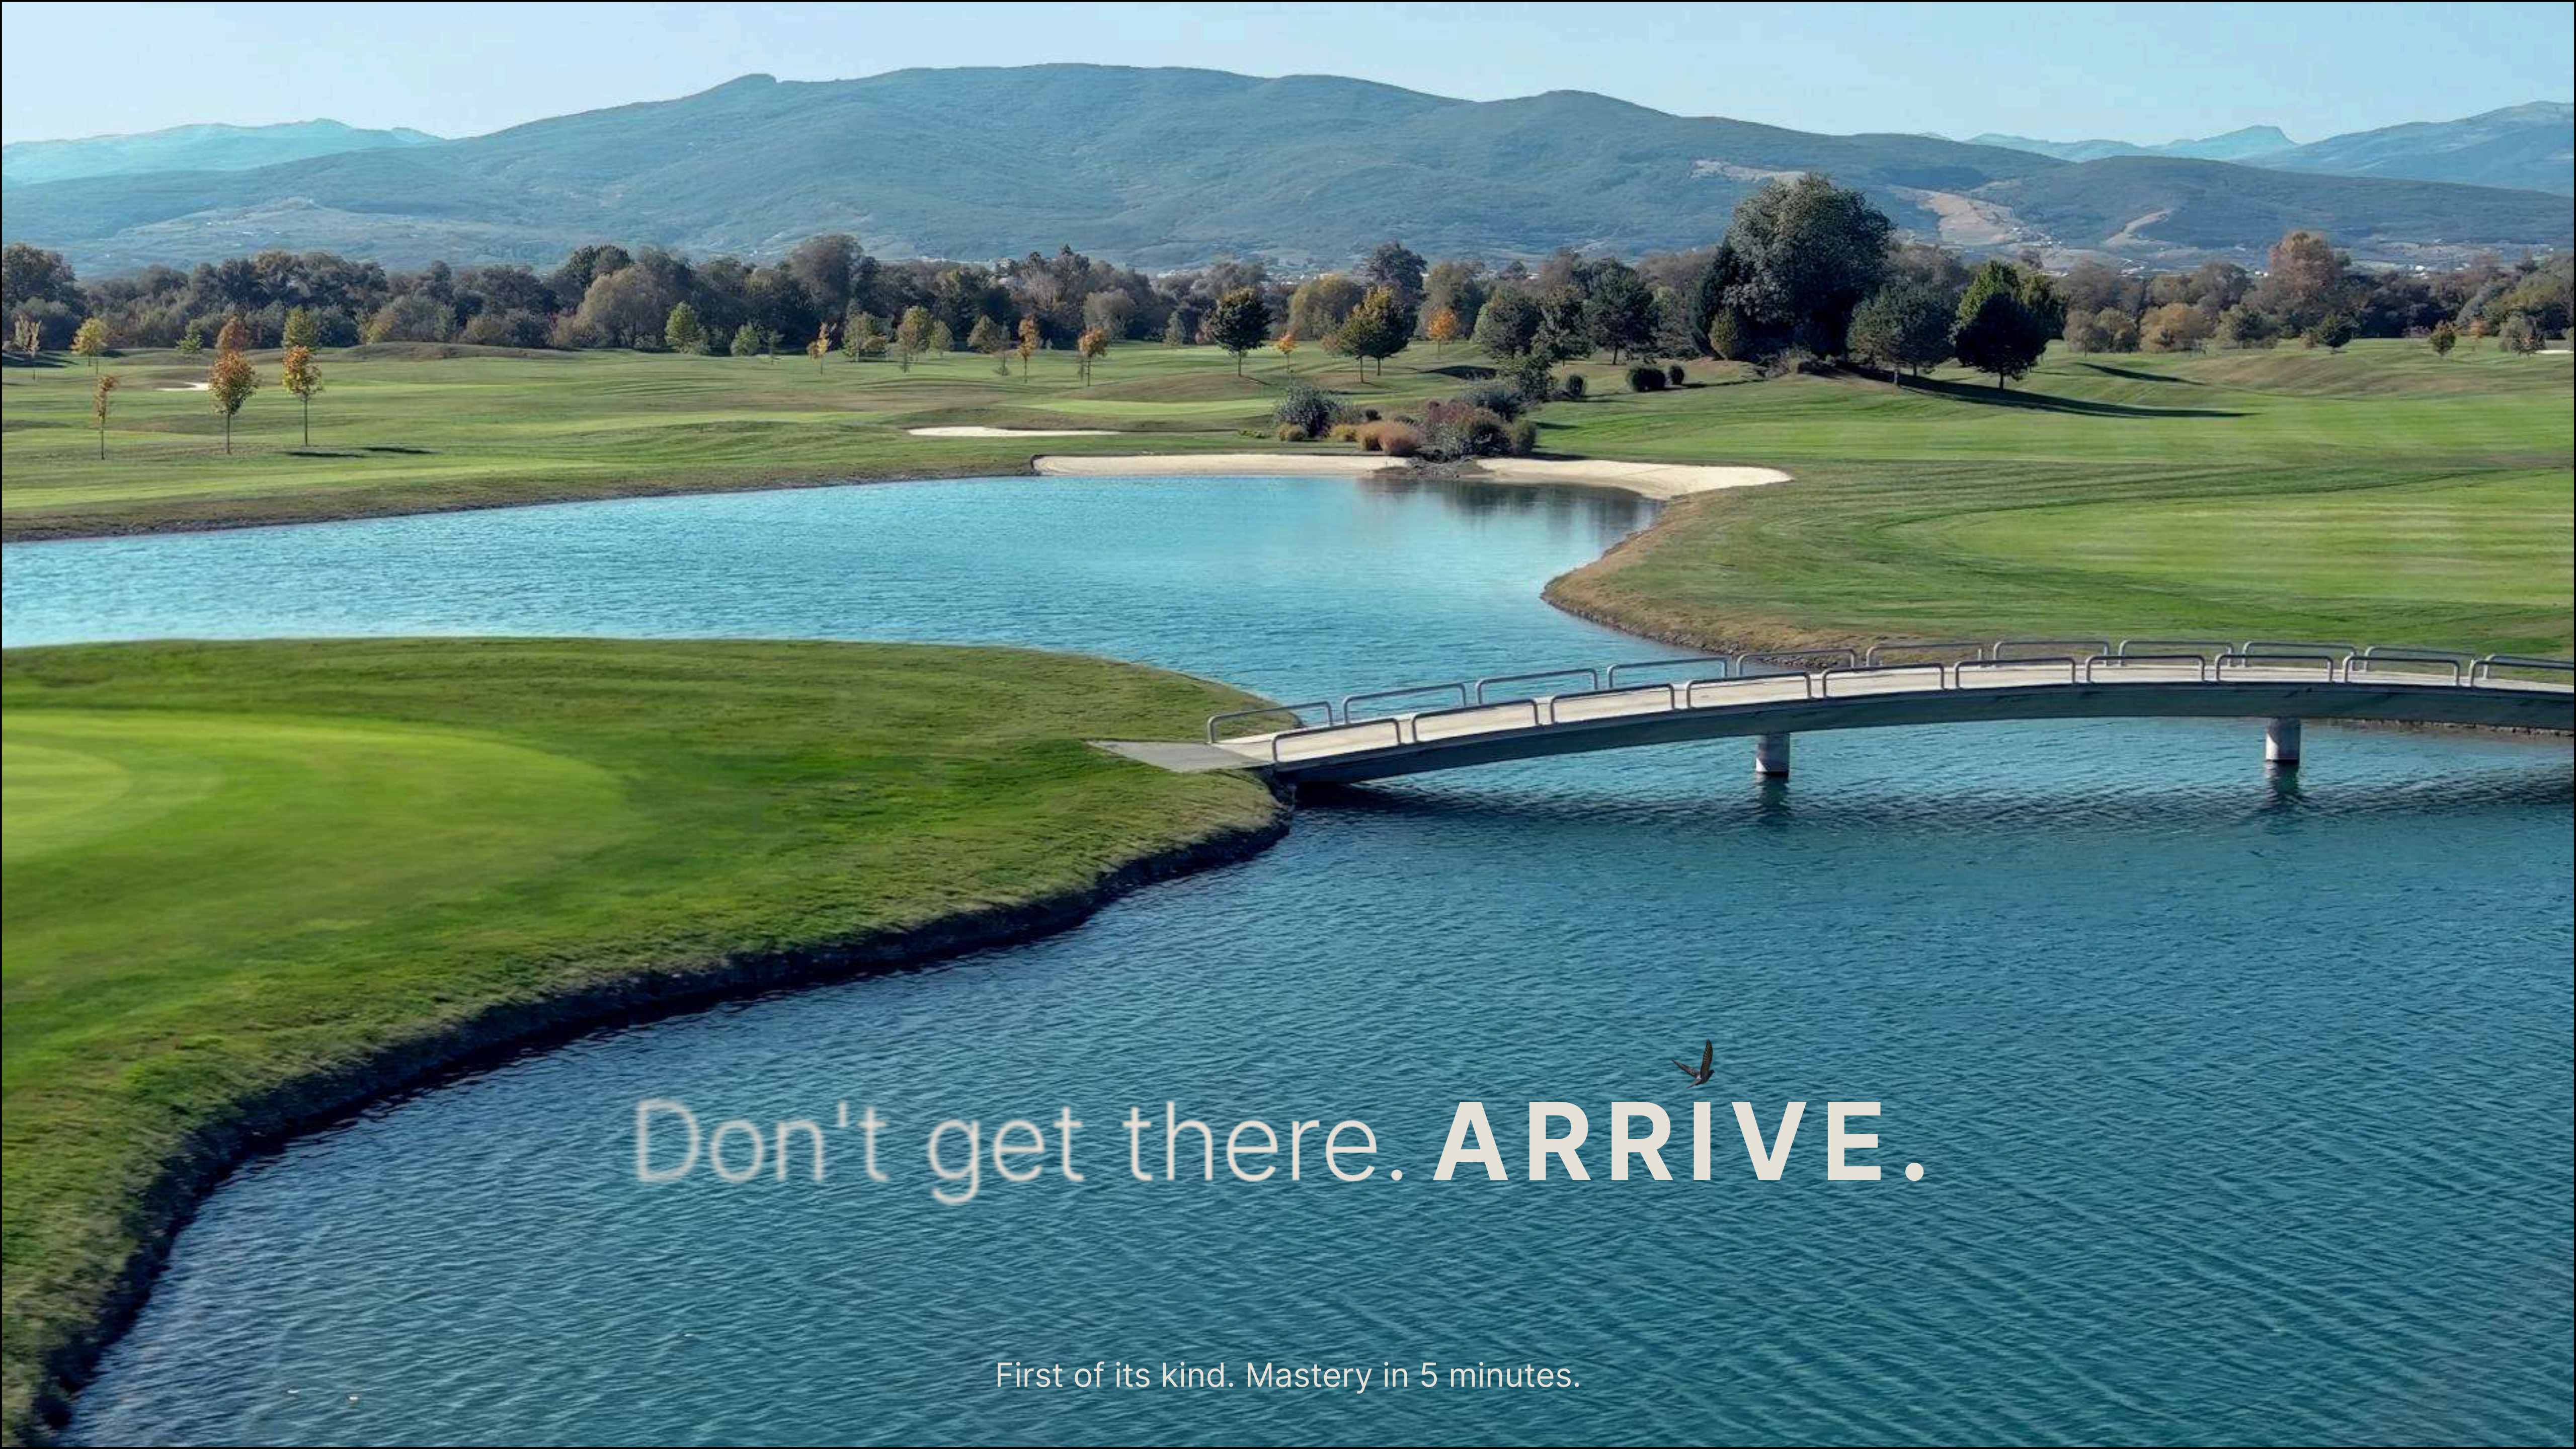

One⁺

One⁺

astreea®

Don't get there. **ARRIVE.**

First of its kind. Mastery in 5 minutes.

LIGHTEST in its class

Imagine a world where movement is silent and effortless.

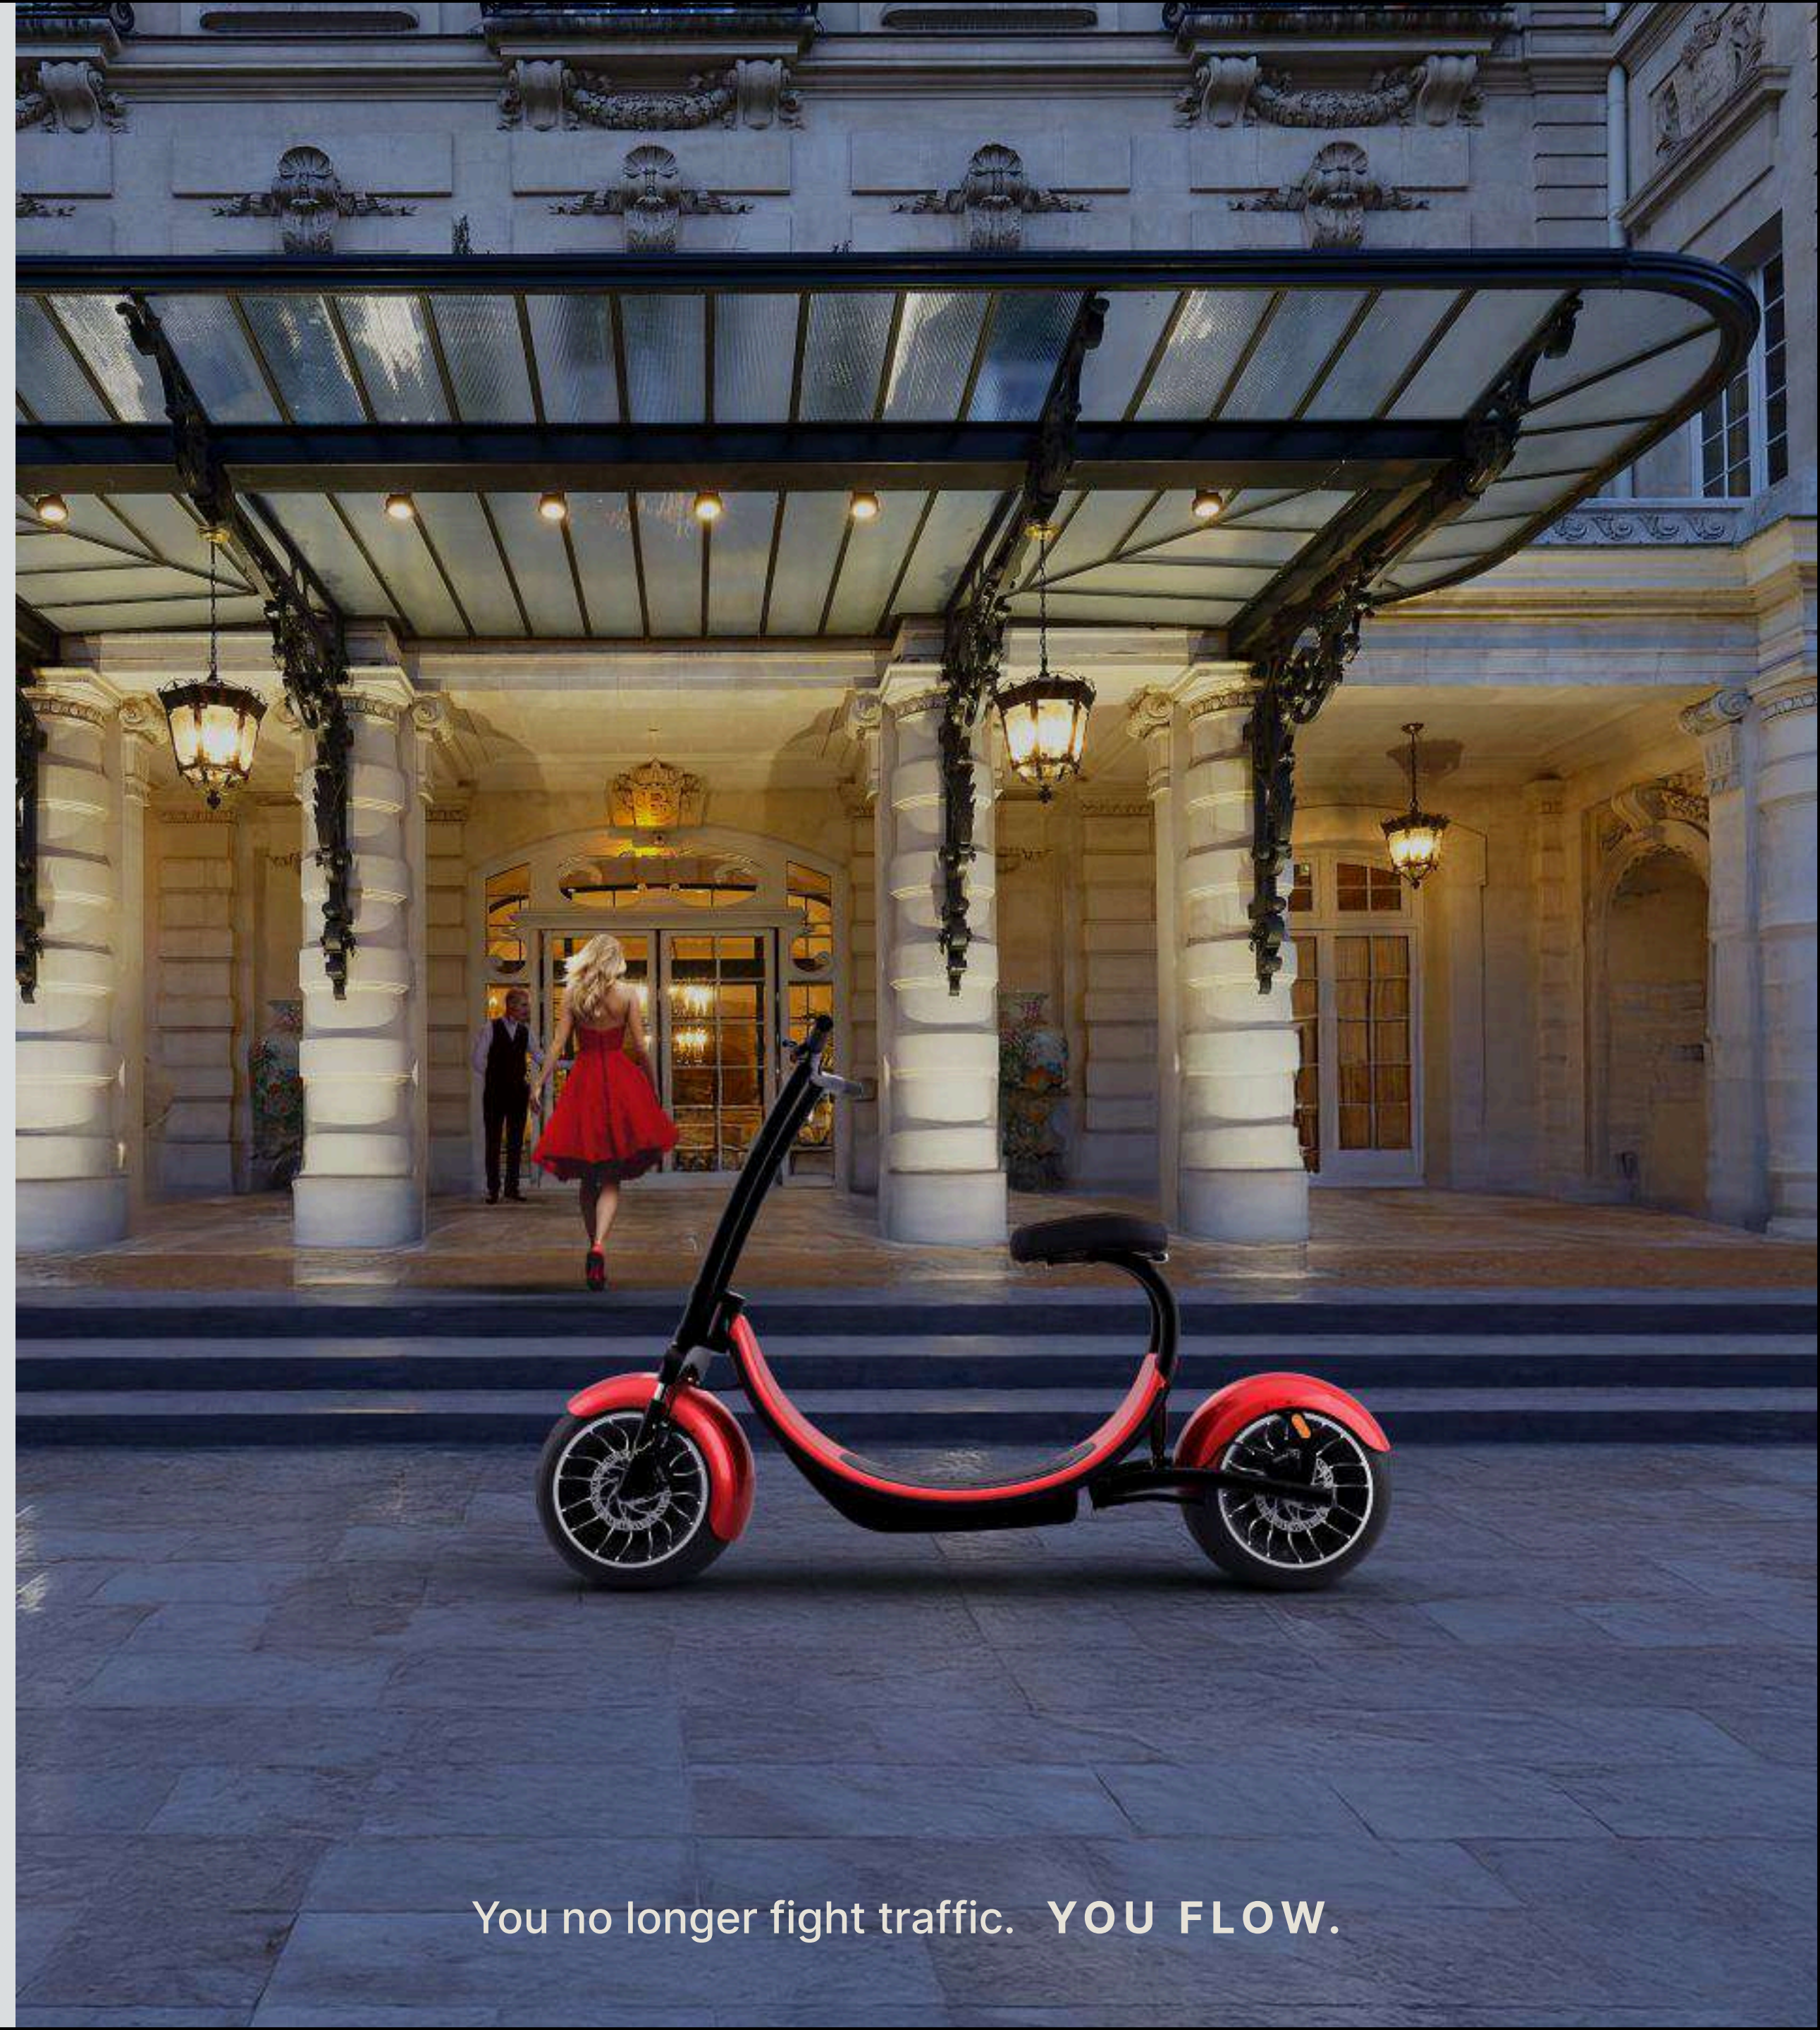

Where you **glide** at 45 km/h, **comfortably seated**, low center of gravity keeping you stable as the city flows past.

No stress, no sweat, with time to spare.

ARRIVE composed

Walk into any room — boardroom
or clubhouse — with your nervous
system regulated, wardrobe intact,
confidence high.

One⁺

You no longer fight traffic. **YOU FLOW.**

You spent more time in traffic
last year than **on vacation**

Commuters lose up to 13 days
a year in traffic jams.

In noise and fumes, stuck in
chaos and frustration.

What could you do with
13 days back?

You're now free to move
differently. On your terms.

Choose your lane • Bike lane • Car lane • Golf course • Park paths • Beach trails

One⁺

Aircraft-grade aluminium.
80 km (50 miles) range

Swappable battery. IoT-enabled.
Keyless access.

Low center of gravity. Seated,
ergonomic stability. Wide dual tires.

Connected, smart, stylish. • Move clean, arrive sharp.

astrøea

Move clean, arrive sharp 🏍️
Electric, quiet movement
up to 45 km/h (28 mph).

astrøea®

NO CABLES

NO COMPROMISE

⚡ This is glide engineering
Lightweight, seated luxury.
Under 50 kg (110 lbs)

One⁺

reddot design award

astrøea®

A new mode of green transportation

Born from **35 years in Europe's aerospace** industry. The One+ is ten years in the making.

A decade of rigorous research, design and testing.

One⁺

Engineered and manufactured
in the European Union

Ergonomic design: a luxury
sports car on two wheels.

Crafted to aerospace
standards, built to endure.

Trust • Precision • Innovation.

A wide-angle landscape photograph of a golf course under a clear blue sky with light clouds. In the foreground, two women are riding a red and black Astrea scooter on a paved path. The woman in front is wearing a light-colored jacket and dark pants, while the woman behind is wearing a light-colored suit. The background features a lush green golf course with a small pond, a line of trees, and a range of mountains in the distance.

Mastery in 5 minutes.

From zero to confident in one block.

astrea®

If you can walk, you can glide.

Intuitive controls. Predictive and regenerative
brake assist. City-tuned suspension.

One⁺

Easy, fun, freeing.

Swappable battery.
80 km (50 miles) range.

TAP IN

Your phone is the only key. No tap, no ride.
Charge your phone with the USB-C port.
